React & Vue Frontend Engineer

Gurgaon, India

- Developed an online learning management system (LMS) for a leading EdTech company to provide interactive and engaging educational experiences. PWA version of LMS features.

Freelancing, Internship, Attainu
Dec 2018 – Aug 2020

Full Stack Engineer

Gurgaon, India

- During my freelancing and internship experiences, I have worked on various projects for clients from China and the USA through Linkedin. Additionally, I served as a mentor for web development in Attainu

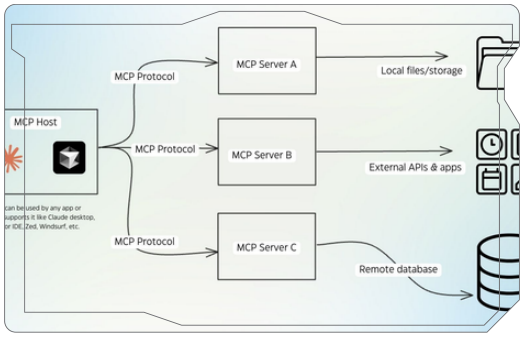
Projects

Devfrend MCP Server

https://devfrend.com

TypeScript, MCP Protocol, Supabase, Next.js API Routes, Claude AI Integration

A production MCP server that exposes task management, loan tracking, and company data to AI assistants like Claude. Built with TypeScript and deployed on Vercel. Enables AI agents to create tasks, track loan payments, and manage project data through natural language commands.

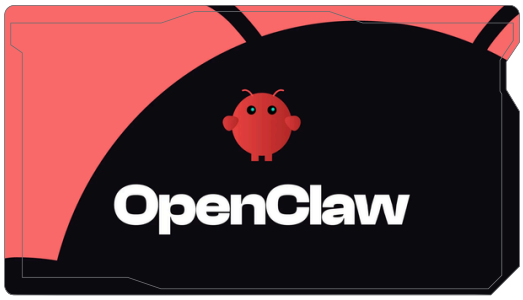


OpenClaw — AI Context Management

https://devfrend.com

File System APIs, Markdown, AI Prompt Architecture

A file-based AI context management system that helps developers maintain structured context for AI-assisted coding workflows. Enables efficient prompt engineering and project-level AI memory.



Projects

Devfrend

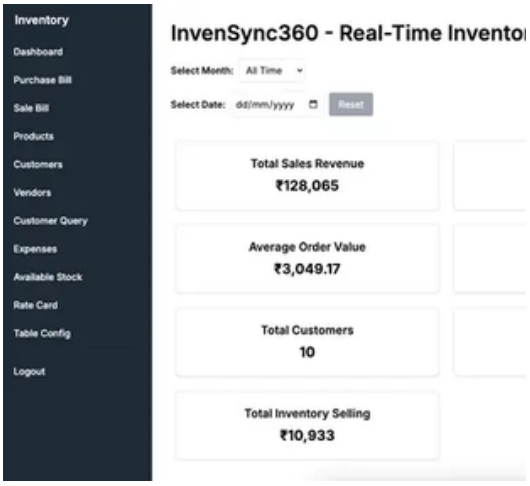
https://devfrend.com
Emotion, React, Redux, Next.js, HSTS, Open Graph, Vercel, Chakra UI, Node.js

A high-velocity web development startup delivering $99 premium websites in 1–2 days using Next.js, Redux, Styled Components, Auth0, Vercel. Served 500+ clients globally with SEO-optimized, mobile-friendly solutions.

InvenSync360

https://inven-sync360.vercel.app
Node.js, Express.js, MongoDB, Mongoose, React, Redux, Tailwind CSS, Heroku, Netlify

A real-time inventory and billing automation tool for SMBs built with Next.js, React, TailwindCSS, NextAuth. Includes inventory tracking, vendor management, PDF billing, and Google Sheets sync.



Ecommerce Seller Admin Panel

https://ecomadmin.vercel.app
Redux, React Router 6, React, PWA, Vercel, Tailwind CSS, Typescript

Multi-channel product management dashboard for Flipkart, Amazon, and Meesho sellers. Built with React, Redux, Material UI, GraphQL, Auth0 to manage inventory, returns, billing, and data exports at scale.
