State Mgmt	Redux, Vuex, Pinia, Redux-Saga, Thunk, Zustand
DevOps & Tools	GitHub, Vercel, Netlify, Heroku, Docker, ESLint, Cursor AI, Codex
Other	Shopify Customization, Google Apps Script, PWA, Pine Script, Python (Backtesting)

Experience

 AI-Powered Full Stack Developer Agusta Software Pvt. Ltd Feb 2025 – Present	Feb 2023 – Present Pune ,India - Designed and built MCP (Model Context Protocol) servers enabling AI agents to interact with external tools, databases, and APIs seamlessly - Integrated LLM-powered chatbots into production web applications for automated customer support and internal tooling - Architected and developed full-stack SaaS platforms using React, Next.js, Vue 3, Node.js, and Supabase with focus on system design and scalability - Built workflow automation systems connecting AI pipelines with business logic, reducing manual processes by 60%+ - Developed PWA loan applications with Vue 3, reusable Node.js backend services, and real-time data processing - Created AI-assisted development workflows using Cursor and Codex for rapid MVP delivery
--	---

Experience

- As a full stack Developer, I specialised in developing and deploying dynamic web applications using vue3. Built reusable Node.js services for backend logic and data processing. I also did the PWA app in loan application.

Spark Eighteen Lifestyle Pvt. Ltd.

Dec 2021 – Aug 2022

Full Stack Developer

Delhi, India

- Worked on a cloud-based project management platform for a service-based company, enabling efficient task allocation, team collaboration, and project monitoring. Integrated Express-based APIs with frontend vue and react apps

LoudCloud Systems Private Limited

Dec 2020 – Oct 2021

React & Vue Frontend Engineer

Mumbai, India

- Contributed to the development of a service-based e-commerce platform for a fashion and lifestyle brand, focusing on personalized recommendations and seamless shopping experiences.

Les Transformations Learning Pvt. Ltd.

Sep 2020 – Nov 2020

React & Vue Frontend Engineer

Gurgaon, India

- Developed an online learning management system (LMS) for a leading EdTech company to provide interactive and engaging educational experiences. PWA version of LMS features.

Freelancing, Internship, Attainu

Dec 2018 – Aug 2020

Full Stack Engineer

Gurgaon, India

- During my freelancing and internship experiences, I have worked on various projects for clients from China and the USA through Linkedin. Additionally, I served as a mentor for web development in Attainu

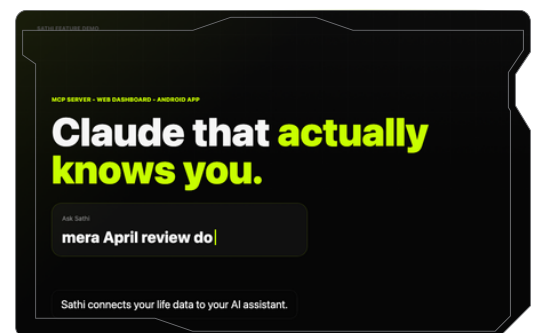

Projects

Sathi – Personal Assistant MCP

<https://Sathi.devfrend.com>

Next.js16 React19, TypeScript, Supabase, PostgreSQL, pgvector, MCP SDK, Zod, OpenAI Embeddings, Tailwind CSS, Vercel

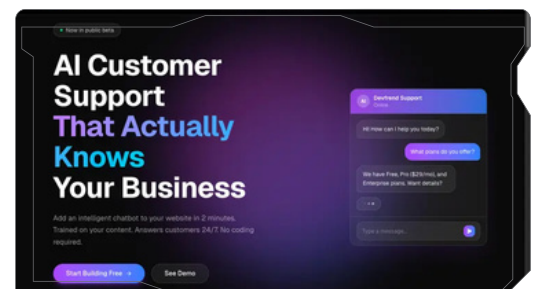

A remote MCP server that turns Claude into a personal assistant — tracks habits, tasks, finances, goals, documents, and memory with semantic search. Built on OAuth 2.0 + PKCE, deployed serverless on Vercel with 41 MCP tools across 6 domains.

AI Chatbot Widget

<https://ai.chat.devfrend.com/>

File System APIs, Markdown, AI Prompt Architecture
A customer-facing AI chatbot that can be embedded into any website as a plug-and-play widget. Provides instant AI-powered support, lead qualification, and knowledge base Q&A using LLMs like Claude and GPT. Features customizable styling, conversation history, smart context handling, and responsive design that

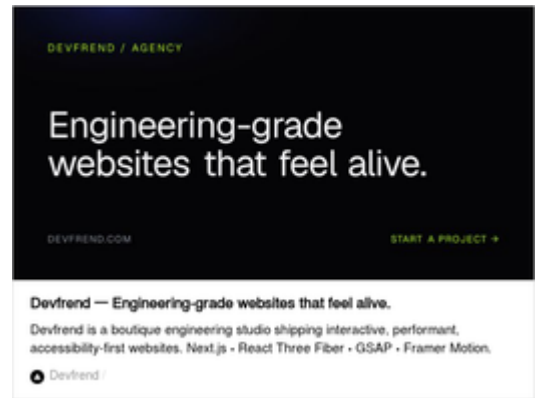

Projects

Devfrend

<https://devfrend.com>

Emotion, React, Redux, Next.js, HSTS, Open Graph, Vercel, Chakra UI, Node.js

A premium engineering studio portfolio website with cinematic 3D visuals, scroll-linked animations, and accessibility-first design. Features WebGL particle fields, shader blobs, magnetic interactions, smooth scroll, and a fully responsive bento-grid case study showcase. Includes contact form with email dispatch and embedded booking.

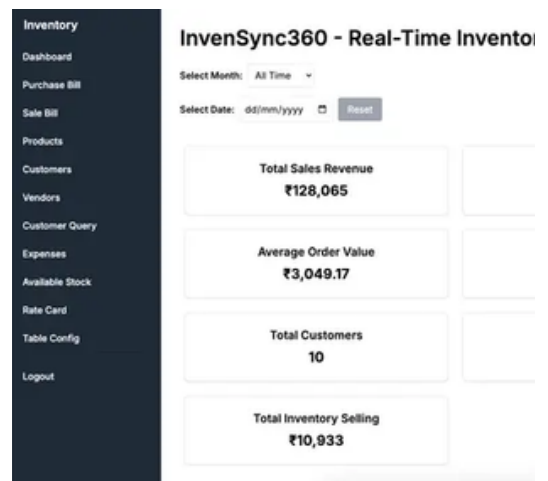

InvenSync360

<https://inven-sync360.vercel.app>

Node.js, Express.js, MongoDB, Mongoose, React, Redux, Tailwind CSS, Heroku, Netlify

A real-time inventory and billing automation tool for SMBs built with Next.js, React, TailwindCSS, NextAuth. Includes inventory tracking, vendor management, PDF billing, and Google Sheets sync.

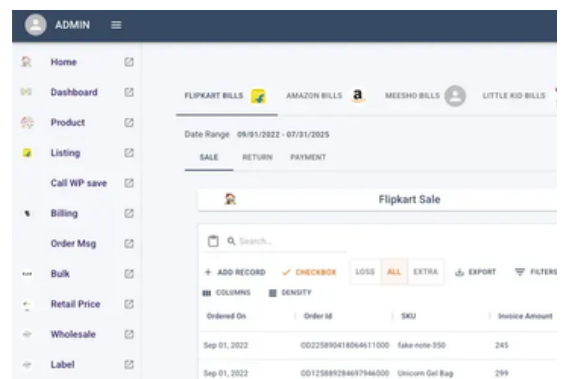

Ecommerce Seller Admin Panel

<https://ecomadmin.vercel.app>

Redux, React Router 6, React, PWA, Vercel, Tailwind CSS, Typescript

Multi-channel product management dashboard for Flipkart, Amazon, and Meesho sellers. Built with React, Redux, Material UI, GraphQL, Auth0 to manage inventory, returns, billing, and data exports at scale.

Education

Pgdav College (Delhi University)

Bachelor of Arts in Computer Science

- Cumulative GPA: 3.96/4

Greenfields Public School

Secondary School CBSE

- Cumulative Percent 12 : 85%
- Cumulative CGPA 10 : 8.2

2017 – 2020

Delhi, India

2015 – 2017

Delhi, India
